

Hey, I'm Nick!

I'm a website designer and front end developer for Cliff Creative's. I'm a creative mind that focuses heavily on branding with logo design's, style guides, photography, videography, 3D and more, with some HTML5 and CSS on the side. In my free time I love to play basketball, work on and drive cars, as well as portrait and automotive photography.

Hey, I'm Malek!

I'm the back-end developer at Cliff Creatives. I love producing projects for the company! We have lots of fun in the office!

I like to spend time with friends, trying new things and exploring new places.

Hey, I'm Collins!

I'm a Project Manager at Cliff Creatives. Bringing an idea to life is no walk in the park.

It's my job to make sure expectations are met on both sides - the client and the company. I'm a huge soccer fan ( Go Manchester united) and in my spare time I love to cook and watch old sitcoms.
